

Street Cleaner Level 1

Assessment Guide

2025

Street Cleaner

Assessment Content

Introduction

The assessment is based on the following three main occupational standards, furtherly divided into twenty-eight performance criteria as identified by Abu Dhabi Quality and Conformity Council for Street Cleaner:

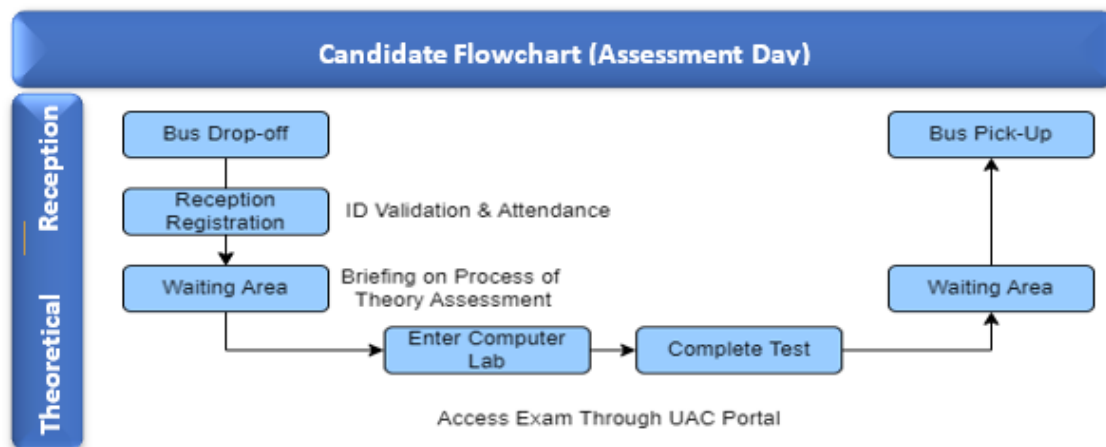

- Remove, collect and dispose of litter and detritus from the ground
- Manage self, money and dignity at workplace/in the field
- Work in a safe, healthy and an environmentally friendly way

The assessment is carried out onsite at ADQCC - UAC certified assessment center. The assessment center is equipped with relevant technical and physical infrastructure.

Assessment Methodology

Theoretical: Twenty (25) multiple choice question computer-based test, AI proctored with camera and sound detection recording. Duration of assessment is approximately one hour

Assessment Life Cycle

Online Assessment System

The Candidate lifecycle including booking, tracking, assessments and certification will be managed through the ADQCC – UAC IT platform. The platform includes a robust credible, reliable online assessment system delivered in multiple languages (*currently implementing English, Arabic, Hindi, Urdu, Nepali, and Bengali*). The system has the following key features:

Interactive User Interface (UI) and User Experience (UX)

- Simple navigation controls, Progress pellets and Questions color coding and Flagging
- Multilanguage, touch UI with Audio, Screen reader compatibility and accessibility

Question Authoring and Randomization

- Ability to author up to 10 question types including multiple choice, picture/audio-based
- Randomized question and answer ordering for each candidate to deter cheating

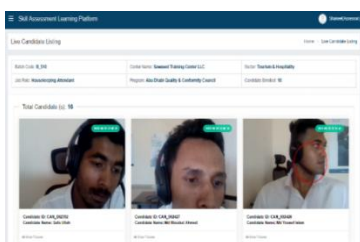

Anti-Cheating Measures

- Geo-Tagged attendance, Secure login with token-based authentication
- AI based proctoring tools during theoretical exam (Activity Detection, Sound Capture etc.)
- Live proctoring to monitor the online exam and to identify suspicious activities

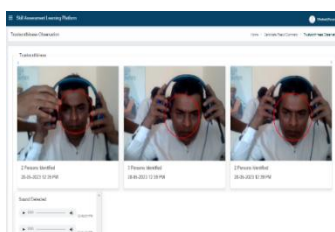

Reporting and Analytics

- Analytics for performance trends and areas of improvement including comparative analysis
- Custom scoring rules and grading scales, Weightage based Result Calculation

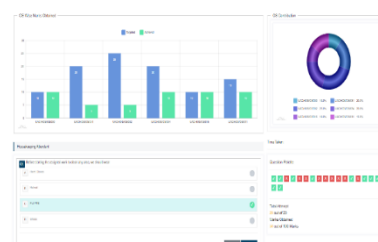

The platform provides easy user defined access to various stakeholders through dedicated dashboards to monitor, approve and track the Program Progress. In addition, the stakeholders can view assessment evidences for each candidate captured during Assessment Journey (Refer below)

Live Proctoring

AI-Based Activity Detection

Result Evidence and Analysis

Assessment Blueprint

The overall passing percentage is **Seventy percent (70%)** based on the **Theoretical Exam**

The assessment weightage suggested for each occupational standard with respect to number of questions to be administered in each exam is explained below.

Occupational Standard	Weightage
Remove, collect and dispose of litter and detritus from the ground	50%
Manage self, money and dignity at workplace/in the field	20%
Work in a safe, healthy and an environmentally friendly way	30%

Element Grouping

Element groups have been identified across three occupational standards. Each element group consists of a set of clubbed elements based on relevant group of performance criteria and each represents one area of assessment. Questions are categorized according to element groups. A total number of **twenty-five** element groups have been identified.

Occupational Standard	Number of Element Groups
Remove, collect and dispose of litter and detritus from the ground	12
Manage self, money and dignity at workplace/in the field	5
Work in a safe, healthy and an environmentally friendly way	8

Full details on related element group weightages are available in Annexure 1, Pages 4 to 6

Question Bank

As part of the submission of assessment, the following questions have been created **theoretical (108 multiple choice questions)**

Occupational standard-wise break up of theoretical questions is provided below:

Occupational Standard	No of Theoretical Questions
Remove, collect and dispose of litter and detritus from the ground	49
Manage self, money and dignity at workplace/in the field	29
Work in a safe, healthy and an environmentally friendly way	30

For full details on Question Bank, kindly refer to Street Cleaner Question Bank document

Annexure 2

Occupation (Standard Unit)	Street Cleaner
----------------------------	----------------

Sr. No.	Occupational Standards (OS)	OS %	Element Group (EG)	No of Questions by EG	PC no	PC Details	No. of Theory Q's
1	Remove, collect and dispose of litter and detritus from the ground	50%	1	6	1.1	Ensure you have the correct instructions and are aware of procedures for carrying out the work	4
					1.2	Confirm the area to be cleaned with supervisor	2
			2	5	1.3	Know the number and location of the containers that you must service	5
