Log in IHIP-HMIS web portal

- Open any browser and go to IHIP web portal (<https://idsp.nhp.gov.in/#/>) and this click on “Health Management Information System” at the bottom of the page or simply type “idsp.nhp.gov.in/hmis” in URL of the browser and click enter.

- Following is the **Homepage** of the HMIS module of IHIP. There are various menus that we will discuss afterwards but the things specific to this page are the ‘What’s New’ box and ‘Important Links’. ‘**What’s New**’ box keeps you updating about the latest Health News. ‘**Important Links**’ box lists various websites important in relation with Health of Indian citizens.

- On clicking the **“Sign In”** button, one will come across the following page. We shall type the Username and Password for the Health Sub Center (HSC) user followed by typing the CAPTCHA and click on Sign In button to log in the HSC user account on IHIP-HMIS. One can also click on **“Reset Password”** if the user wants to change the password or have forgotten the password. User can also click on **toll free number** displayed in red just below ‘Reset Password’ in case of issue or problem for help.

- After successful log in, the user can see the home page of his account on IHIP-HMIS. It has extra menus as compared to the HMIS home page without log in. There are various buttons on the lower part like **‘Dashboard’**, **‘Key Demographic Indicators’**, **‘Photo Gallery’**, **‘Training Material’** and **‘IPHS Norms’** which does not need much explanation. Just above these 5 buttons, one can see the links for **‘Upcoming Events’** and **‘Past Events’**. On the right side, the user can see **‘Last Reported’** box which suggest when was the last time the 2 most important Data entry forms were updated.

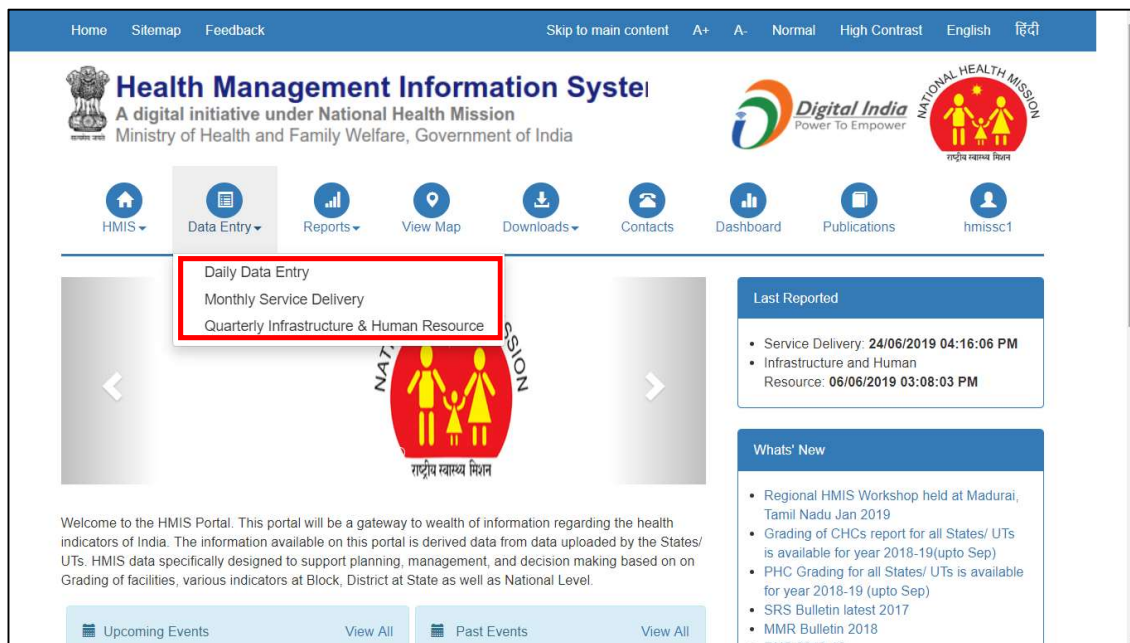

HMIS Homepage menu

- On clicking the “HMIS homepage” menu, one can know about HMIS programme by clicking on various sub menu under “About Us”.

Data Entry menu

Data Entry menu has 3 types of Entry forms: “Daily Data Entry”, “Monthly Service Delivery” and “Quarterly Infrastructure & Human Resource”.

- There are fields that are common to all 3 data entry form types. First is the **‘Facility Information’** which tells about basic details of the Facility. As we have logged in the user account of Ajjavara HSC of Chikkaballapura sub district of Chikballapur District of Karnataka, the upper part of the page shows the details of the that HSC.
- Then there is date of **‘Today’** which contains the date when the user is seeing the page.
- **Print / Export excel** can help to print / export the data entered for the selected month.
- After data entry is completed, the user can click on **‘Submit’** button to send the data on the server.
- One more peculiarity of these data entry forms is **‘Document Number’**. This Document Number is specific to the health facility with Date stamp. The first 2 digits is specific to State, following 3 digits are specific to District, following 4 digits are specific to Sub-District, followed by ‘0’, followed by 10 digit Health Facility NIN (National Identification Number) which is also specific for the Health Facility, followed by Date in DDMMYYYY form followed by form type (‘D’ indicates “Daily Data Entry”, ‘M’ indicates “Monthly Service Delivery” data entry form and ‘I’ indicates “Quarterly Infrastructure & Human Resource” data entry form) followed by a Number which indicates the form number of that particular date.
- One message which is common to all the data entry form types is **“Please enter the data accurately and check before submission”** to emphasize on the point to cross check the data before clicking on “Submit” button.

Let’s take each type of Data Entry form one by one.

Daily Data Entry

- This data entry form opens the data elements that need to be reported on daily basis by the Health Sub Center user.
- This form also has “Nil Reporting” button, selecting which, all the cells in the form gets filled in by ‘0’.
- “Reset” button is also given to clear all the cells so as to fill in the cells again if there has been gross data entry errors while filling in.
- It also contains “Reporting Date” which can be selected up to last 7 days; i.e. the user can edit the Daily Data Entry forms of last 7 days.

Monthly Service Delivery

- As name itself suggests, the data in this form needs to be updated on monthly basis.
- This data entry form has 3 parts (Part A, B and C); each part having many data elements which are further divided in to major categories in the form of M1, M2-3 etc. One can click on one of the major categories to open those data elements to do the data entry in the relevant data elements. **Part A** contains the data elements of **Reproductive and Child Health**; **Part B: Health Facility Services**; **Part C: Stock related**.
- The page also contains the '**Preview**' button to review the data entry before submitting.
- '**Compare**' button helps to compare the data of present month to the previous month.
- The form also contains "**Reporting Month**" to select for which the user wants to submit data.

Reports Menu

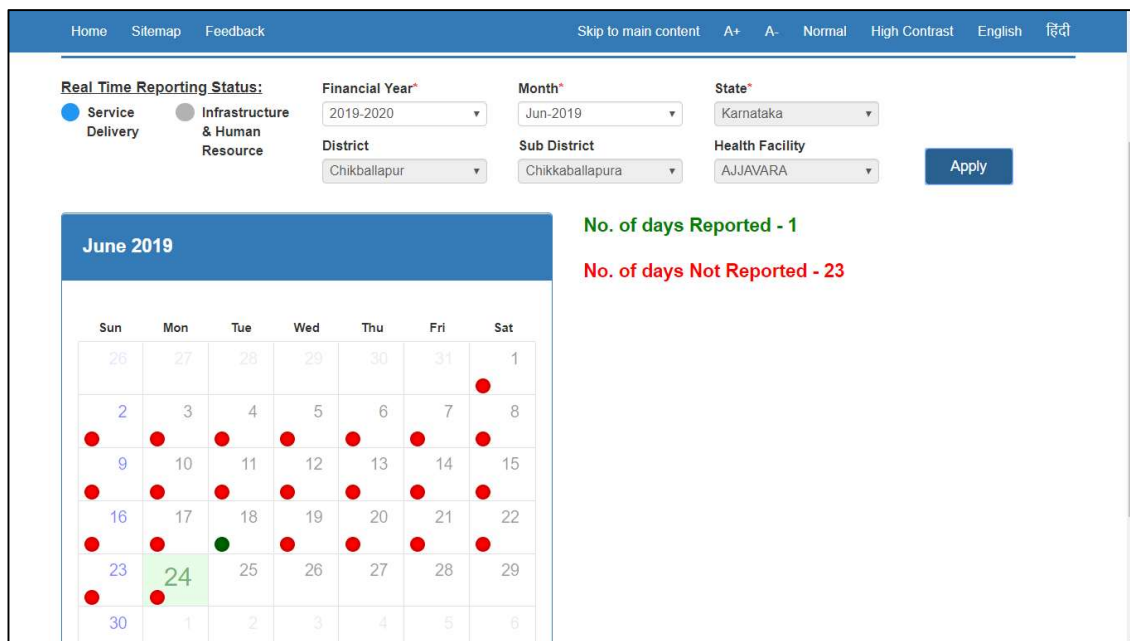

- This menu contains 2 major types of reports: **Real Time Report** and **Standard Report**.

The screenshot shows the HMIS portal interface. At the top, there's a navigation bar with links like Home, Sitemap, Feedback, and a language selector. Below this is the header section with the HMIS logo and the National Health Mission logo. A central navigation bar contains icons for Home, Data Entry, Reports, View Map, Downloads, Contacts, Dashboard, Publications, and a user profile. The 'Reports' icon is highlighted with a red box, and a dropdown menu is shown with 'Real Time Report' and 'Standard Report' options. The 'Real Time Report' option is further expanded to show 'Real Time Reporting Status'. Below the navigation bar, there's a large banner for 'Digital India' and a welcome message. On the right side, there's a 'Last Reported' section showing the last report date and time, and a 'Whats' New' section with a list of recent updates.

Real Time Report → Real Time Reporting Status

- This report basically shows on which day and how many days in a month the 'Service Delivery' form was submitted by the HSC user. The green spot in a date indicates that the form was submitted on that date and red indicates that the form was not submitted on that date.

The screenshot shows the 'Real Time Reporting Status' page. At the top, there's a navigation bar with links like Home, Sitemap, Feedback, and a language selector. Below this is the header section with the HMIS logo and the National Health Mission logo. A central navigation bar contains icons for Home, Data Entry, Reports, View Map, Downloads, Contacts, Dashboard, Publications, and a user profile. The 'Reports' icon is highlighted with a red box, and a dropdown menu is shown with 'Real Time Report' and 'Standard Report' options. The 'Real Time Report' option is further expanded to show 'Real Time Reporting Status'. Below the navigation bar, there's a large banner for 'Digital India' and a welcome message. On the right side, there's a 'Last Reported' section showing the last report date and time, and a 'Whats' New' section with a list of recent updates.

Reports

- Real Time Report
- Standard Report
- Data Item Wise Report
- Range wise Report
- Facility Master Report
- Reporting Summary

Last Reported

- Service Delivery: 24/06/2019 08:08:45 PM
- Infrastructure and Human Resource: 06/06/2019 03:08:03 PM

Whats' New

- Regional HMIS Workshop held at Madurai, Tamil Nadu Jan 2019
- Grading of CHCs report for all States/ UTs is available for year 2018-19 (upto Sep)
- PHC Grading for all States/ UTs is available for year 2018-19 (upto Sep)
- SRS Bulletin latest 2017
- MMR Bulletin 2018

Standard Report → Data Item Wise Report

- This report gives the filter (named 'Indicator') for selecting one or more groups of data elements to be viewed on the report. The report has the flexibility of selecting 'From Date' and 'To date'.

The screenshot shows the 'Data Item Wise Report' form. At the top, there is a navigation bar with links: Home, Sitemap, Feedback, Skip to main content, A+, A-, Normal, High Contrast, English, and हिंदी. Below this is a toolbar with icons for HMIS, Data Entry, Reports, View Map, Downloads, Contacts, Dashboard, Publications, and a user profile (hmissc1). The form itself has several sections: 'State*' (Karnataka), 'District' (Chikballapur), 'Sub District' (Chikkaballapura), 'From Date' (24/05/2019), 'To Date' (24/06/2019), and 'Health Facility' (AJJAVARA). There are 'Print' and 'Export Excel' buttons. The 'Indicator' section shows a list of indicators with checkboxes, including M1 [Ante Natal Care (ANC)], M2 [Deliveries], M9 [CHILD IMMUNISATION], and others. An 'Apply' button is next to the indicator list.

- One can see the data in aggregate number in front of data elements of the selected groups for the selected dates for the Health Sub Center.

The screenshot shows the 'Data Item Wise Report' form with the data table displayed. The table has columns: Category, Code, Data Item, Sub Data Item, and AJJAVARA. The data is for Health Facility AJJAVARA of Subdistrict Chikkaballapura of Chikballapur District, Karnataka State during the period - Data Current as of 24th June 2019 21:50:50 PM.

Category	Code	Data Item	Sub Data Item	AJJAVARA
	1.1	Total number of pregnant women registered for ANC		
	1.1.1	Out of the total ANC registered, number registered within 1st trimester (within 12 weeks)		
	1.2.1	Number of PW given TT1		
	1.2.2	Number of PW given TT2		
	1.2.3	Number of PW given TT Booster		

Standard Report → Range Wise Report

- This report gives the flexibility to select some important indicators from the 'Indicator' filter.
- The user can also select the 'From Month' and 'To Month' for the selected Financial Year.

Health Management Information System
A digital initiative under National Health Mission
Ministry of Health and Family Welfare, Government of India

Rangewise Report

Financial Year*: 2019-2020 From Month*: Apr-2019 To Month*: Jun-2019

State*: Karnataka District: Chikballapur Sub District: Chikkaballapura

Indicator*: Deliveries conducted at facility

Buttons: Print PDF, Export Excel, Apply

- On clicking the 'Apply' button, one can get the report below. This report basically shows Total Number of Facilities in the District and Sub District (to which the HSC belongs), Total number of Facilities reporting Nil for the selected months and distribution of Facilities in Average Performance, Maximum Performance and Minimum performance with further distribution of these data elements by Facility Types. By this report, the HSC user can know where his or her facility (in this case an HSC) stands among various facilities in the Sub-District and District for the selected indicator.

Rangewise Report

Financial Year*: 2019-2020 From Month*: Apr-2019 To Month*: Jun-2019

State*: Karnataka District: Chikballapur Sub District: Chikkaballapura

Indicator*: Deliveries conducted at facility

Buttons: Print PDF, Export Excel, Apply

- If the user finds anything incorrect in terms of facility details, then the user needs to report to district admin as the user doesn't have access to edit the health facility master data; only district admin can request to edit the health facility data to state admin for approval.
- User also needs to cross check "Villages covered" after first log in; if the data field is empty or contains incorrect villages selected in that data element, then user need to report to district admin as the user can't edit this mapping but district admin has complete authorization of editing the HSC to Villages mapping.

The screenshot shows the 'Edit Facility Details' form in the HFMS. The form is divided into several sections. A red box highlights the 'Facility Details' section, which includes fields for Facility Type (Health Sub Centre), Facility Name (AJJAVARA), Date of Enrollment (14/02/2019), Status (Open), Ownership (Urban/Rural), Facility NIN (7131488343), Facility Website, State (Karnataka), District (Chikkaballapur), Sub District (Chikkaballapura), Village, Population covered (0), Bed Count, Physical/Notional (Physical), Area Category Name (Difficult Area), Area Covered (0), and Serving Urban Slum. Another red box highlights the 'Villages Covered' field, which is currently empty. The form also includes fields for Internal Laboratory Present (Yes/No), Building #, Address 1, Address 2, Pincode, Landmark, PHC, Officer Incharge, Mobile #, Landline #, and Email Id. A 'Validate Location In The Map' button is visible below the form.

- The user can also Validate and update the location of the facility on map by clicking 'Validate Location in The Map'

The screenshot shows the 'Change Facility Location' map interface. A map of the Chikkaballapur district is displayed, with various villages and towns labeled. A red pin is placed on the map, indicating the location of the facility. The map is surrounded by a blue border. Below the map, there are 'Update' and 'Close' buttons. The background shows the same form as the previous screenshot, but it is dimmed.
